We are Here to Help You Keep Your Kids Safe!

Keeping your child safe even when they are not at school is important to us! Here is what we will do to help keep your kids safe while in the car...

- We are working with the Eagle County Sheriff and Basalt Police Dept. to set up car seat safety checks during pick up time. Stay posted on upcoming dates!
- If we notice your child is not properly buckled coming to school or leaving we will say something to you! If after we say something to you and there is still a concern, we will call the police and notify them.
- Each class will be working with the kids to practice buckling up! Our hope is that this will help your child understand the importance of always being buckled!

Size matter most.

Car seat systems are developed to protect children based on their size, not their age. Match your child's weight and height to determine the appropriate seat restraint such as a rear-facing infant seat, a forward facing seat with a harness, a booster seat, or a seat belt. Don't let others make you feel pressured into a new system that could compromise your child's safety.

Click It or Ticket.

Under Colorado's Child Passenger Safety law, infants and children must be properly buckled up when riding in motor vehicles. A driver can be ticketed and fined for each unrestrained or improperly restrained child in the vehicle.
